Using the ISO 9001 Logo

Copyrighted

The ISO 9001 Logo is a copyrighted symbol by ANSI / ASQ. You cannot use their logo on any of your documents. Do not place it on your website, catalogs, signs etc.

Certification Audit

During your registration audit or yearly surveillance audit, the auditor will question your company about your ISO 9001 symbols. They may review your website and your catalogs for inappropriate application.

Formal Document

If you really want to impress your registrar, create a formal document on the appropriate use of the ISO symbols. Train the appropriate employees on this policy.
